CITY OF SALEM MASSACHUSETTS

WINTER ISLAND PARK 2009 AERIAL PHOTO

Nice views, potential for dam interpretation here

Potential loop to make

Potential loop to make

Could remove some vegetation to open views

Consider open area for off-trail use, such as picnicking and terrace seating

Potential grander trail entrance / exit requires relocation of boats, removal of part of fence, and some earthwork

FORT PICKERING NORTHWEST BASTION

Could remove some vegetation to open views

Wood chips, utility poles, and other vegetation to clear

Consider relocating boats

dense sumac and bittersweet to clear

FORT PICKERING

All parking lot drainage flows here. Must capture and treat.

Slope stability issues along this edge of parking

Allee: 9 maples coastside, 7 maples inland

fill in gap

replace multi-leader maple

Consider removing some of the 5 grills

views to maintain

narrow lower bank here

upper trail possibility
lower trail possibility

- grade issue
- - - - close social trail
- - - - existing spur
- - - - spur to add
- dense vegetation to clear
- vegetation to clear

HARBORMASTER OFFICE AREA

SUMAC GROVE

BRUSH TO CLEAR

PROPERTY LINE FENCE

SIGNAGE

Spreading across work priority levels I & II, consider where interpretive signage is appropriate and signage aesthetics. Install new interpretive plaques where plaques were removed as appropriate.

WORK PRIORITY I IMPROVE FIRST IMPRESSION

WORK PRIORITY II ADDRESS MORE EASILY DEFINED ISSUES AND OCEAN VIEWING AREA

1930s Fort pickering
