Well Water Supply Certificate Application

The issuance of a Water Supply Certificate by the Board of Health shall certify that the private well may be used as a drinking water supply. A Water Supply Certificate must be issued for the use of a private well prior to the issuance of an occupancy permit for an existing structure or prior to the issuance of a building permit for new construction which is to be served by the well.

The following must be submitted to the Board of Health to obtain a Water Supply Certificate :

- *copy of the Well Construction Permit
- *copy of the Water Well Completion Report as required by the DEM
Office of Water Resources (313 CMR 3.00)
- *copy of the Pumping Test Report
- *copy of the Water Quality Report
